DETAILED ACTION

Response to Amendment

This Office Action is in response to Amendment filed on 09/29/2006.

Claims 17-22 are newly added.

Claims 1-22 are pending.

Remark of Applicants has been considered and found persuasive.

Reason for allowance

Claims 1-22 are allowed. The following is an examiner's statement of reason for allowance: None of the references of record teaches or suggests the claimed limitations having a process of fabricating a high resistance CMOS resistor, comprising the steps of forming an n-well in the p-type silicon substrate, forming a p-well in a non-active area of the p-type silicon substrate, forming a first p-field region into the p-well and a second p-field region into the n-well, wherein the second p-field region forms a CMOS resistor, forming two p-type contact regions respectively as a first ohmic contact and a second ohmic contact of the CMOS resistor respectively and among other limitations cited in independent claims 1, 17.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
